Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions made to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society*.

ABRAHAM, E. P. *see* NEWTON, G. G. F. 257

ALBERT, A. Quantitative studies on the avidity of naturally occurring substances for trace metals. 1. Amino-acids having only two ionizing groups 531

ALBERT, A. The avidity of folic acid and other pteridines for the ions of heavy metals ix

ALBERT, A. The metal-binding properties of riboflavin xxvii

ALDMAN, B. *see* DICZFALUSY, E. xlii

ALEXANDER, A. E. *see* GODDARD, E. D. 331

ALEXANDER, P., CARTER, D. & EARLAND, C. The reaction of oxidizing agents with wool. 2. The sorption of hydrogen peroxide 251

ANNISON, E. F., JAMES, A. T. & MORGAN, W. T. J. The separation and identification of small amounts of mixed amino sugars xxxvi

ARNSTEIN, H. R. V. The biosynthesis of choline methyl groups in the rat xviii

BACON, J. S. D. *see* EDELMAN, J. xlii

BAILEY, K. The problem of adenosinetriphosphate. *Addendum to* The estimation of adenosinetriphosphate (ROWLES, S. L. & STOCKEN, L. A.) 489

§*BALDWIN, E. Some comparative aspects of the biochemistry of fish liii

BANKS, T. E., FRANCIS, G. E., FRANKLIN, K. J. & WORMALL, A. The use of radioactive isotopes in immunological investigations. 3. Further studies on the fate of injected ^{32}P-containing proteins 374

BANKS, T. E., TUPPER, R. L. F. & WORMALL, A. The fate of some intravenously injected zinc compounds. 1. The determination of ^{65}Zn in tissues. 2. The fate of injected zinc carbonate and phosphate and a zinc dithizone complex 466

BEECKMANS, M.-L. *see* POPJÁK, G. 233

BELL, D. J. & NORTHCOTE, D. H. Observations on the polysaccharides composing the cell wall of baker's yeast li

BERRY, W. K. The turn-over number of cholinesterases xxi

BIELSCHOWSKY, M. The preparation of adenosinetriphosphate from acetone-dried muscle and a chemical method for the preparation of adenosinediphosphate 105

BIRKINSHAW, J. H. & MORGAN, E. N. Biochemistry of wood-rotting fungi. 6. Volatile metabolic products of species of *Endoconidiophora* 55

BLACKBURN, S. The action of papain on wool keratin 443

BLACKBURN, S. The liberation of free amino-acids during the acid hydrolysis of wool xxviii

BLEWETT, M. *see* OLLEY, J. 564

BOOTH, V. H. The influence of sex on the storage of vitamin A xliii

BOREI, H. Reactivation and protection of cytochrome oxidase preparations 227

BOYD, G. S. Choline and methionine in the embryonated hen egg xlvii

BOYLAND, E. & WOLF, G. Metabolism of polycyclic compounds. 6. Conversion of phenanthrene into dihydroxydihydrophenanthrenes 64

BRADY, T. G. A simplified method for the isolation of thymidine from thymonucleic acid v

BRADY, T. G. A study of the low molecular constituents of the yeast cell v

BRADY, T. G. *see* CONWAY, E. J. 360, 369

BRAY, H. G., HUMPHRIS, B. G. & THORPE, W. V. Metabolism of derivatives of toluene. 5. The fate of the xylenols in the rabbit, with further observations on the metabolism of the xylenes 395

BRAY, H. G., JAMES, S. P., THORPE, W. V. & WASDELL, M. R. Deacetylation of acetamido compounds by tissue extracts 483

BRAY, H. G., JAMES, S. P., THORPE, W. V. & WASDELL, M. R. The fate of certain organic acids and amides in the rabbit. 11. Further observations on the hydrolysis of amides by tissue extracts 294

BRAY, H. G., LAKE, H. J., THORPE, W. V. & WHITE, K. Further observations on the use of paper chromatography for the detection of phenolic compounds in metabolic studies xiii

BRAY, H. G., THORPE, W. V. & WHITE, K. Kinetic studies of the metabolism of foreign organic compounds xiii

BREMNER, J. M. The amino-acid composition of the protein material in soil 538

BROOKSBANK, B. W. L. & HASLEWOOD, G. A. D. The nature of pregnanediol-like glucuronide 36

BROOKSBANK, B. W. L., OWEN, G. M. & PRUNTY, F. T. G. The response in urinary 'reducing steroid' excretion to stimulation of the adrenal cortex by adrenocorticotropic hormone xlv

BROWN, F. Separation of the lower fatty acids as anions by paper chromatography 598

BUFFA, P., LOTSPEICH, W. D., PETERS, R. A. & WAKELIN, R. W. Fluoroacetate poisoning and 'jamming' of the tricarboxylic acid cycle; mode of action of an 'active' fluoro compound synthesized via this cycle xvii

BU'LOCK, J. D., HARLEY-MASON, J. & MASON, H. S. Hallachrome and dopachrome xxxii

BURT, N. S., MCNABB, A. R. & ROSSITER, R. J. Chemical studies of peripheral nerve during Wallerian degeneration. 2. Lipids after nerve crush (axonotmesis) 318

CAREY, M. *see* CONWAY, E. J. iii

CARTER, D. *see* ALEXANDER, P. 251

CARTON, E. *see* CONWAY, E. J. 369

CECIL, R. The quantitative reactions of thiols and disulphides with silver nitrate 572

CHAUDHURI, D. K. & KODICEK, E. The biological activity for the rat of a bound form of nicotinic acid present in brain xxxiv

CHESHIRE, J. D. *see* MCILWAIN, H. xviii

CHUGHTAI, M. I. D., PEARCE, A. A. & WALKER, T. K. The mechanism of the formation of organic acids by mould fungi. 4. The formation of acetic and pyruvic acids in *Aspergillus niger* growing in glucose media 135

CLAYSON, D. B. Some differences between the metabolism of 2-naphthylamine and of 2-acetamidonaphthalene in the dog and cat xlvi

COLLINS, F. D. & MORTON, R. A. Studies on rhodopsin. 1. Methods of extraction and the absorption spectrum 3

COLLINS, F. D. & MORTON, R. A. Studies on rhodopsin. 2. Indicator yellow 10

COLLINS, F. D. & MORTON, R. A. Studies on rhodopsin. 3. Rhodopsin and transient orange 18

COMFORT, A. Acid-soluble pigments of molluscan shells. 5. Identity of some fractions derived from *Pinctada vulgaris* 254
CONWAY, E. J. & BRADY, T. G. Biological production of acid and alkali. 1. Quantitative relations of succinic and carbonic acids to the potassium and hydrogen ion exchange in fermenting yeast 360
CONWAY, E. J., BRADY, T. G. & CARTON, E. Biological production of acid and alkali. 2. A redox theory for the process in yeast with application to the production of gastric acidity 369
CONWAY, E. J., CAREY, M. & MOORE, P. T. Concerning the entrance rate of KCl into the whole isolated sartorius of the frog and into single fibres iii
CONWAY, E. J. & DOWNEY, M. An outer metabolic region of the yeast cell 347

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions made to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Absorption spectrum of rhodopsin (Collins, F. D. & Morton, R. A.) 3
Acetamido compounds, deacetylation by tissue extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 483
2-Acetamidonaphthalene, metabolism in dog and cat (Clayson, D. B.) xlvi
2-Acetamidonaphthalene, metabolism of (Manson, L. A. & Young, L.) 170
Acetanilide, deacetylase for (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 483
Acetate, action in the assay of β-glucuronidase (Kerr, L. M. H., Levvy, G. A. & Walker, P. G.) xxx
Acetate, ^{14}C-labelled, study of cholesterol and fatty acid synthesis by (Popják, G. & Beeckmans, M.-L.) 233
Acetate, effect of co-carboxylase on the formation by homogenates of aneurin-deficient pigeon brain (Coxon, R. V.) xxxvii
Acetate, incorporation into porphyrins (Muir, H. M. & Neuberger, A.) 97
Acetate, metabolism in pigeon breast muscle (Davison, M. & Gibson, Q. H.) l (*Proc.*)
Acetic acid, determination in biological fluids (Conway, E. J. & Downey, M.) iv
Acetic acid, formation in *Aspergillus niger* growing in glucose media (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Acetylcholine and its carbon analogue, hydrolysis by horse erythrocyte cholinesterase (Mounter, L. A. & Whittaker, V. P.) 525
N-Acetylglycine, deacetylase for (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 483
Acid, biological production of (Conway, E. J. & Brady, T. G.) 360; (Conway, E. J., Brady, T. G. & Carton, E.) 369
Acid, fatty, study of synthesis by aid of deuterium and ^{14}C-labelled acetate (Popják, G. & Beeckmans, M.-L.) 233
Acid, haemolytic, purification and identification as *cis*-octadec-11-enoic acid (Morton, I. D. & Todd, A. R.) 327
Acid, haemolytic, X-ray examination of (Goddard, E. D. & Perutz, M. F.) 334
Acid production, by mixed human saliva in the presence and absence of glucose (Hartles, R. L. & Macdonald, N. D.) 60
Acid secretion by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Acidity, gastric, theory of (Conway, E. J., Brady, T. G. & Carton, E.) 369
Acids, faecal, of rats (Cook, R. P., Polgar, N. & Thomson, R. O.) 600
Acids, fatty, separation as anions by paper chromatography (Brown, F.) 598
Acids, organic, fate in rabbit (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Acids, organic, in larval blood *Gastrophilus intestinalis* (Levenbook, L.) 336
Acids, organic, mechanism of formation by mould fungi (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Adenine in deoxypentose nucleic acids (Wyatt, G. R.) vii
Adenine, quenching of fluorescence by (Weber, G.) 114
Adenosinetriphosphatase activity of isolated myofibrils (Perry, S. V.) xxxviii
Adenosinetriphosphate breakdown (Bailey, K.) 492
Adenosinetriphosphate, breakdown in extracts of rabbit muscle (Humphrey, B. A. & Humphrey, G. F.) 238
Adenosinetriphosphate, estimation of (Rowles, S. L. & Stocken, L. A.) 489
Adenosinetriphosphate, preparation from acetone-dried muscle (Bielschowsky, M.) 105
Adenylic acid, hydrolysis by rabbit-muscle extract (Humphrey, B. A. & Humphrey, G. F.) 238
Adrenal cortex, stimulation by adreno-corticotropic hormone, response in excretion of 'reducing steroid' of urine to (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
Adrenaline, oxidation by tea oxidase (Roberts, E. A. H. & Wood, D. J.) 175
Adreno-corticotropic hormone, response in urinary 'reducing steroid' excretion to stimulation of the adrenal cortex by (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
African migratory locust (*Locusta migratoria migratorioides*, R. & F.), redox pigment present in the integument and eyes of (Goodwin, T. W. & Srisukh, S.) 549
African migratory locust, metabolism of insectorubin in (Goodwin, T. W.) 554
Albumin, effect of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Albumin in normal urine (Marrack, J. R. & Johns, R. G. S.) xxxi
Albumins in serum, interaction with calcium (Martin, N. H. & Perkins, D. J.) 323
Alcohols, effects on cholinesterase (Fellowes, K. P., Rutland, J. P. & Todrick, A.) xx
Ali-esterase, horse plasma, specificity of (Sturge, L. M. & Whittaker, V. P.) 518
Alkali, biological production of (Conway, E. J. & Brady, T. G.) 360; (Conway, E. J., Brady, T. G. & Carton, E.) 369
Alkaline phosphatase content of serum of young guinea pigs, influence of scurvy and fall in weight on (Perkins, H. R. & Zilva, S. S.) 306
Alkaline phosphatase, inhibition of (Diczfalusy, E., Aldman, B., Högberg, B. & Rosenberg, T.) xlii
Amides, fate in rabbit (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Amides, hydrolysis by kidney and liver extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Amines, aromatic, metabolism of (Manson, L. A. & Young, L.) 170
Amino groups of wool, sorption of hydrogen peroxide by (Alexander, P., Carter, D. & Earland, C.) 251
Amino sugars, mixed, separation and identification of (Annison, E. F., James, A. T. & Morgan, W. T. J.) xxxvi
Amino-acid composition of the protein material in soil (Bremner, J. M.) 538
Amino-acid content of rat brain during insulin hypoglycaemia (Dawson, R. M. C.) 386
D-Amino-acid oxidase, action of suramin on (Wills, E. D. & Wormall, A.) 158
Amino-acid pattern in human foetal and maternal plasma at delivery (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Amino-acids, aromatic, metabolism in premature infants (Woolf, L. I. & Edmunds, M. E.) 630
Amino-acids, avidity for trace metals (Albert, A.) 531

Amino-acids, excretion by infants on varying diets (Woolf, L. I. & Edmunds, M. E.) 630
Amino-acids, free, liberation during the acid hydrolysis of wool (Blackburn, S.) xxviii
Amino-acids in larval blood of *Gastrophilus intestinalis* (Levenbook, L.) 336
Amino-acids of rat liver during insulin hypoglycaemia (Dawson, R. M. C. & Williams, R. B.) 391
p-Aminobenzoic acid derivatives, separation by paper chromatography (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
p-Aminobenzoic acid, metabolism of (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
p-Aminohippuric acid, separation by paper chromatography (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
p-Aminohippuric acid as metabolite of *p*-aminobenzoic acid (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
2-Amino-5-methylthiazole-4-carboxylic acid, vitamin B_1-like activity of (Di Maggio, G.) 562
o-Aminophenol and synthesis of glucuronides by mouse-liver slices (Storey, I. D. E.) 212
p-Aminosalicylic acid, separation by paper chromatography (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
Ammonium salt buffer, inhibition of chick plasma phosphatase by (Motzok, I. & Wynne, A. M.) 187
Ammonium salts, quaternary, effect on plant growth (Jones, R. L., Madinaveitia, J., Metcalfe, T. P. & Sexton, W. A.) 110
Amphibians, bile salts of (Haslewood, G. A. D. & Wootton, V.) 584
β-Amylase, inhibition of plant phosphorylases by (Porter, H. K.) 476
Amylase, salivary, action on tobacco-leaf fibre (Holden, M. & Tracey, M. V.) 421
Amylase, synthesis and secretion by pigeon pancreas slices *in vitro* (Hokin, L. E.) xlvi
β-Amylolysis, role of Z-enzyme in (Thomas, G. J., Whelan, W. J. & Peat, S.) xl
Anaemia, pernicious, marrow from cases of (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Androst-16-en-3α-ol, isolation from human urine of (Brooksbank, B. W. L. & Haslewood, G. A. D.) 36
Aneurin-deficient pigeon brain, effect of co-carboxylase on formation of acetate by homogenates of (Coxon, R. V.) xxxvii
Aneurin, determination of, in rat carcass and liver (Kratzing, C. C. & Slater, E. C.) 24
Aneurin economy in animals, effect of sulphonamides on (Kratzing, C. C. & Slater, E. C.) 24
Aniline oxalate, use for colorimetric determination of pentoses (Tracey, M. V.) 433
Anions, separation by paper chromatography of fatty acids as (Brown, F.) 598
Anomeric carbon atoms in cardiac glycosides, configuration of (Klyne, W.) xli
Antibiotics, effect on glutamic acid accumulation and protein synthesis in *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) xxvi
Antibodies to phospholipins (Francis, G. E. & Wormall, A.) 380
Antirachitic preparations, assay by a method based on the determination of plasma phosphatase activity (Motzok, I.) 196
Antithyroid substances, mercaptoglyoxalines (Searle, C. E., Lawson, A. & Hemmings, A. W.) 77
Antitoxic sera, inhibition of *Clostridium haemolyticum* lecithinase (Macfarlane, M. G.) 267
Antrycide, determination of (Spinks, A.) 299
Aphanin, probable identity with echininone (Goodwin, T. W. & Taha, M. M.) 244
'Apparent vitamin C' of walnut, identification with hydrojuglone glucoside (Daglish, C.) 462
Arginase, action of suramin on (Wills, E. D. & Wormall, A.) 158
Artichoke, Jerusalem, transfructosidation in (Edelman, J. & Bacon, J. S. D.) xlii
Ascorbic acid and conversion of haemoglobin to bile pigments (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Ascorbic acid, effect on excretion of phenolic metabolites in infants (Woolf, L. I. & Edmunds, M. E.) 630
Ascorbic acid, organic catalysts of the oxidation of (Pryde, J.) xii
L-Asparagine, manometric determination of (Krebs, H. A.) 605
L-Aspartate and transport of potassium in retinae (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
L-Aspartic acid, manometric determination of (Krebs, H. A.) 605
Aspartic-glutamic transaminase, use in manometric determination of certain amino-acids (Krebs, H. A.) 605
ATP *see* Adenosinetriphosphate
Autolysis of animal tissues, changes in aspartic and glutamic acids owing to (Krebs, H. A.) 605
Avidity of naturally occurring substances for trace metals: amino-acids (Albert, A.) 531
Axonotmesis (nerve crush), lipids after (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Ayfivin (bacitracin), resolution of crude products into peptides (Newton, G. G. F. & Abraham, E. P.) 257
Azide effect in yeast with respect to potassium and phosphate permeability (Conway, E. J. & Moore, P. T.) iii
Azide, effect on glucuronide synthesis by mouse-liver slices (Storey, I. D. E.) 212
Azide, estimation of small quantities of (Lees, H.) xliv
Azide, inhibition of acid secretion by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369

Bacillus licheniformis, bacitracin (ayfivin) from (Newton, G. G. F. & Abraham, E. P.) 257
Bacillus subtilis, effect of *cis*-vaccenic acid on growth and respiration (Laser, H.) xxxii
Bacitracin, resolution of crude products into peptides (Newton, G. G. F. & Abraham, E. P.) 257
Bacterial toxins (Macfarlane, M. G.) 270
Barley, detection of phosphorylases in (Porter, H. K.) 476
§Bases, nitrogenous, chemistry and metabolism in fish (Shewan, J. M.) liii
Bean, 'de-branching' enzyme in (Hobson, P. N., Whelan, W. J. & Peat, S.) xxxix
Benzamides, substituted, hydrolysis by rabbit-liver extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Beri-beri hyperglycaemia in pigeons, effect of 2-amino-5-methylthiazole-4-carboxylic acid on (Di Maggio, G.) 562
Bicarbonate and fermentation of yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Bicarbonate, effect on glucuronide synthesis in mouse-liver slices (Storey, I. D. E.) 212
Biladienes, spectral and chemical properties of (Comfort, A.) 254
Bile pigment formation *in vitro* from haem derivatives (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Bile pigment, study of metabolism using ^{15}N (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Bile salts, comparative study of (Haslewood, G. A. D. & Wootton, V.) 584
§Bile salts of fish (Haslewood, G. A. D.) liv
Bilipurpurin, estimation of (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Biliverdin, estimation of (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Bilioviolin, spectral and chemical properties of (Comfort, A.) 254
Biogenesis of porphyrins (Muir, H. M. & Neuberger, A.) 97

Biosynthesis of *o*-, *m*- and *p*-chlorophenylglucuronides (Spencer, B. & Williams, R. T.) 279
Bismuth iodide, potassium, in determination of ergothioneine (Lawson, A., Morley, H. V. & Woolf, L. I.) 513
Blood, determination of reducing sugar in (Ramsay, W. N. M.) xli
Blood formation in congenital porphyria (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Blood, horse, esterases of (Sturge, L. M. & Whittaker, V. P.) 518; (Mounter, L. A. & Whittaker, V. P.) 525
Blood of *Gastrophilus intestinalis* larva, composition of (Levenbook, L.) 336
Blood plasma, human, dried, reaction between proteins and glucose in (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) xxx
Blood plasma, human dried, reaction with reducing sugar (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) 626
Bone marrow, breakdown of haem in congenital porphyria (Gray, C. H., Muir I. M. H. & Neuberger, A.) 542
Bone phosphatase, relationship with plasma phosphatase (Motzok, I.) 193
Bones, mammalian, degree of calcification of (Wiedman, S. M. & Rogers, H. J.) 493
Bones, phosphatase content of scorbutic guinea pigs (Perkins, H. R. & Zilva, S. S.) 306
Bot fly, horse, composition of larva blood (Levenbook, L.) 336
Brain, aneurin-deficient pigeon, effect of co-carboxylase on formation of acetate by homogenates of (Coxon, R. V.) xxxvii
Brain, horse, haemolytic acid in (Morton, I. D. & Todd, A. R.) 327; (Goddard, E. D. & Alexander, A. E.) 331
Brain, horse, X-ray examination of haemolytic acid in (Goddard, E. D. & Perutz, M. F.) 334
Brain, potassium exchange of (Krebs, H. A., Eggleston, L. V. & Terner, C.) xxxiv
Brain, rat, biological activity of nicotinic acid in (Chaudhuri, D. K. & Kodicek, E.) xxxiv
Brain, rat, glutamine and glutamic acid content during insulin hypoglycaemia (Dawson, R. M. C.) 386
Brain, role of glutamic acid in the transport of potassium in (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Brain tissue, inorganic and creatine phosphates of, metabolic maintenance *in vitro* (McIlwain, H. & Cheshire, J. D.) xviii
Breast muscle, pigeon, metabolism of acetate in (Davison, M. & Gibson, Q. H.) l (*Proc.*)
Bromobenzene, metabolism of (Spencer, B. & Williams, R. T.) 279
Buffers, action in the assay of β-glucuronidase (Kerr, L. M. H., Levvy, G. A. & Walker, P. G.) xxx
*iso*Butyl acetate from *Endoconidiophora* (Birkinshaw, J. H. & Morgan, E. N.) 55
Butyrylcholine and hydrolysis of aliphatic esters by horse plasma cholinesterase (Sturge, L. M. & Whittaker, V. P.) 518

Cadmium, avidity of amino-acids for (Albert, A.) 531
Calcification of mammalian bones, degree of (Wiedman, S. M. & Rogers, H. J.) 493
Calcification zones in young guinea pigs, influence of scurvy and fall in weight on (Perkins, H. R. & Zilva, S. S.) 306
Calcium, activation of adenosinetriphosphatase by (Humphrey, B. A. & Humphrey, G. F.) 238
Calcium content of bones (Wiedman, S. M. & Rogers, H. J.) 493
Calcium, interaction with serum albumins (Martin, N. H. & Perkins, D. J.) 323
Carbimino groups of wool, sorption of hydrogen peroxide by (Alexander, P., Carter, D. & Earland, C.) 251
Carbonic acid, relation to the K^+ and H^+ exchange in fermenting yeast (Conway, E. J. & Brady, T. G.) 360
Carboxymethyl cellulose, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Carboxy-substituted phenyl phosphates, rate of enzymic hydrolysis of (Walker, P. G. & King, E. J.) 93
Cardiac glycosides, configuration of the anomeric carbon atoms in (Klyne, W.) xli
Caries, dental, and acid production by saliva (Hartles, R. L. & Macdonald, N. D.) 60
β-Carotene, distribution in *Patella* spp. (Goodwin, T. W.) 249
β-Carotene in gonads of *Patella* spp. (Goodwin, T. W. & Taha, M. M.) 244
Carotenoid distribution in the gonads of the *Patella* spp. (Goodwin, T. W.) 249
§Carotenoids in fish (Goodwin, T. W.) liv
Carotenoids of the gonads of the limpets *Patella* spp. (Goodwin, T. W. & Taha, M. M.) 244
Cat, metabolism of 2-naphthylamine and 2-acetamidonaphthalene in (Clayson, D. B.) xlvi
Catalase, inhibition of aerobic metabolism of spermatozoa by (Tosic, J. & Walton, A.) 199
Catechins, oxidation by tea oxidase (Roberts, E. A. H. & Wood, D. J.) 175
Catechol, oxidation by tea oxidase (Roberts, E. A. H. & Wood, D. J.) 184
Cell wall of baker's yeast, polysaccharides composing (Bell, D. J. & Northcote, D. H.) li
Cellophan, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Cellophan, pH effects when used as dialysing membrane (Gilbert, G. A. & Swallow, A. J.) 506
Cellulase, detection and estimation of (Holden, M. & Tracey, M. V.) 407
Cellulase from leaves and roots of tobacco (Tracey, M. V.) 431
Cellulase of snail digestive juice (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Cellulose, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Cerebroside in nerves after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Chick, rachitic, plasma phosphatase of (Motzok, I. & Wynne, A. M.) 187; (Motzok, I.) 193, 196
Chloride in larval blood of *Gastrophilus intestinalis* (Levenbook, L.) 336
Chlorobenzene, metabolism of (Spencer, B. & Williams, R. T.) 279; (Smith, J. N., Spencer, B. & Williams, R. T.) 284
4-Chlorocatechol formation from chlorophenol in rabbit (Spencer, B. & Williams, R. T.) 279
4-Chlorocatechol glucuronide, isolation in rabbit (Smith, J. N., Spencer, B. & Williams, R. T.) 284
o-, *m*- and *p*-Chlorophenols, metabolism of (Spencer, B. & Williams, R. T.) 279
o-, *m*- and *p*-Chlorophenylglucuronide, biosynthesis of (Spencer, B. & Williams, R. T.) 279
p-Chlorophenylglucuronide, isolation in rabbit (Smith, J. N. Spencer, B. & Williams, R. T.) 284
p-Chlorophenylglucuronide, use as substrate in the spectrophotometric determination of β-glucuronidase activity (Spencer, B. & Williams, R. T.) xiv
p-Chlorophenylmercapturic acid, isolation in rabbit (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Chloroplast fraction of sap sediment (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Cholesterol in nerves after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Cholesterol, metabolism in rat (Cook, R. P., Polgar, N. & Thomson, R. O.) 600
Cholesterol synthesis, study by aid of deuterium and ^{14}C-labelled acetate (Popják, G. & Beeckmans, M.-L.) 233

Choline dehydrogenase, action of suramin on (Wills, E. D. & Wormall, A.) 158
Choline in the embryonated hen egg (Boyd, G. S.) xlvii
Choline methyl groups in the rat, biosynthesis of (Arnstein, H. R. V.) xviii
Cholinesterase, horse erythrocyte, specificity of (Mounter, L. A. & Whittaker, V. P.) 525
Cholinesterase, horse plasma, specificity of (Sturge, L. M. & Whittaker, V. P.) 518
Cholinesterases, effects of alcohols on (Fellowes, K. P., Rutland, J. P. & Todrick, A.) xx
*Cholinesterases, electrometric method of Michel and Summerson for the estimation of (Davies, D. R. & Rutland, J. P.) xxi
*Cholinesterases of the blood in health, variation of (Davies, D. R. & Rutland, J. P.) xxi
*Cholinesterases, turnover number of (Berry, W. K.) xxi
Chromatographic examination of the products of the action of pectinase on pectin (Jermyn, M. A. & Tomkins, R. G.) 437
Chromatography, paper, bridge unit for (Kawerau, E.) xxi
Chromatography, paper, separation of *p*-aminobenzoic acid derivatives by (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
Chromatography, paper, separation of fatty acids as anions by (Brown, F.) 598
Chromatography, paper, use for the detection of phenolic compounds in metabolic studies (Bray, H. G., Lake, H. J., Thorpe, W. V. & White, K.) xiii
Citric acid, mode of formation in moulds (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Clostridium haemolyticum toxin, lecithinase activity of (Macfarlane, M. G.) 267
Clostridium oedematiens β-toxin, antigenic identity in *Clostridium haemolyticum* toxin (Macfarlane, M. G.) 267
Clostridium species, toxins of, haemolysis by (Macfarlane, M. G.) 270
Clostridium species, toxins of, hydrolysis of phospholipins by (Macfarlane, M. G.) 270
Clostridium welchii toxin, inhibition of succinoxidase activity of mitochondria by (Macfarlane, M. G.) xxix
Cobalt, avidity of amino-acids for (Albert, A.) 531
Co-carboxylase, effect on formation of acetate by homogenates of aneurin-deficient pigeon brain (Coxon, R. V.) xxxvii
Comparative biochemistry of bile salts (Haslewood, G. A. D. & Wootton, V.) 584
Congenital porphyria, excretion of urobilinogen in (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Congenital porphyria, studies in (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Conjugation of glucuronic acid in resacetophenone, orientation of (Dodgson, K. S.) xi
Constitution of quaternary ammonium salts, relationship with effect on plant growth (Jones, R. L., Madinaveita, J., Metcalfe, T. P. & Sexton, W. A.) 110
Copper, avidity of amino-acids for (Albert, A.) 531
Coproporphyrin in urine, an ether-soluble precursor of (Raine, D. N.) xiv
Cornea, mucopolysaccharide of the (Woodin, A. M.) xxxvii
Corpuscle, red-blood, observations on the kinetics of haemoglobin in (Legge, J. W. & Roughton, F. J. W.) 43
Cortex, adrenal, stimulation by adreno-corticotropic hormone, response in urinary 'reducing steroid' excretion to stimulation of (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
Costochondral junctions, phosphatase content of scorbutic guinea pigs (Perkins, H. R. & Zilva, S. S.) 306
Cotton, sorption of hydrogen peroxide by (Alexander, P., Carter, D. & Earland, C.) 251
Counter-current distribution, study of bacitracin (ayfivin) (Newton, G. G. F. & Abraham, E. P.) 257
Creatine phosphates of brain tissue, metabolic maintenance *in vitro* (McIlwain, H. & Cheshire, J. D.) xviii
Cryptoxanthin, distribution in *Patella* spp. (Goodwin, T. W.) 249
Cryptoxanthin in gonads of *Patella* spp. (Goodwin, T. W. & Taha, M. M.) 244
Cyanide, effect on glucuronide synthesis by mouse-liver slices (Storey, I. D. E.) 212
Cysteine, activation of adenosinetriphosphatase by (Humphrey, B. A. & Humphrey, G. F.) 238
Cystine, estimation by reduction and determination of thiol formed (Cecil, R.) 572
Cystine, non-occurrence in hydrolysates of soil proteins (Bremner, J. M.) 538
Cytochrome *c*, reactivation of and oxidase system of heart muscle (Borei, H.) 227
Cytochrome oxidase preparations, reactivation and protection of (Borei, H.) 227
Cytological interpretation of the Feulgen reaction (Stedman, E. & Stedman, E.) 508
Cytosine in deoxypentose nucleic acids (Wyatt, G. R.) vii

Deacetylation of acetamido compounds by tissue extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 483
'De-branching' enzyme in bean and potato (Hobson, P. N., Whelan, W. J. & Peat, S.) xxxix
Decarboxylase, oxalacetic (Herbert, D.) i
Decarboxylases, use in determination of certain amino-acids (Krebs, H. A.) 605
Degeneration, Wallerian, chemical changes in peripheral nerve during (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Dehydration by hypertonic saline, effect on the water content of a number of organs in the rat (McCance, R. A. & Robinson, J. R.) xxv
Dental caries, and acid production by saliva (Hartles, R. L. & Macdonald, N. D.) 60
Deoxypentose nucleic acids, quantitative analysis of (Wyatt, G. R.) vii
Deoxyribonucleic acid phosphorus content of human bone marrow (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Desert locust, metabolism of insectorubin in (Goodwin, T. W.) 554
Desert locust (*Schistocerca gregaria*, Forsk.), redox pigment present in the integument and eyes of (Goodwin, T. W. & Srisukh, S.) 549
Desiccation, reactivation of and oxidase system of heart muscle (Borei, H.) 227
Deuterium, study of cholesterol and fatty acid synthesis by (Popják, G. & Beeckmans, M.-L.) 233
Diabetogenic activity of growth hormone preparations, effect of certain treatments on (Reid, E.) xxvii
Dialysis, application of ion-exchange resins (Gilbert, G. A. & Swallow, A. J.) 502
Dialysis, pH changes during (Gilbert, G. A. & Swallow, A. J.) 506
Di-(2-chloroethyl) sulphide *see* Mustard gas
Diffusion, micro-, methods (Conway, E. J. & Downey, M.) iii
Digestive juice of *Helix*, action on defined substrates (Holden, M. & Tracey, M. V.) 407
Digestive juice of *Helix*, action on leaf fibre (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Dihydrodihydroxychlorobenzene isolated from rabbit urine, structure of (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Dihydroxydihydrophenanthrenes, formation from phenanthrene by rats and rabbits (Boyland, E. & Wolf, G.) 64

2:4-Dinitrophenol, effect on fermentation by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
2:4-Dinitrophenol, effect on glucuronide synthesis by mouse-liver slices (Storey, I. D. E.) 212
2:4-Dinitrophenol in the study of pathways of pyruvate metabolism in lactating mammary tissue (Terner, C.) xlix
Disulphides, estimation of (Cecil, R.) 572
Disulphides, hydrolytic fission of (Cecil, R.) 572
Disulphides, quantitative reaction with silver nitrate (Cecil, R.) 572
Dithiophosphonates, preparation of (Holiday, E. R., Philpot, J. St L. & Stocken, L. A.) 637
Dog, metabolism of 2-naphthylamine and 2-acetamidonaphthalene in (Clayson, D. B.) xliv
Dogs, thiocyanate space and iodide space in the thyroid gland of (McClendon, J. F., Foster, W. C. & Reed, E.) 53
Dopachrome and hallachrome (Bu'Lock, J. D., Harley-Mason, J. & Mason, H. S.) xxxii

Echininone, distribution in *Patella* spp. (Goodwin, T. W.) 249
Echininone in gonads of *Patella* spp. (Goodwin, T. W. & Taha, M. M.) 244
Echininone, structure of (Goodwin, T. W. & Taha, M. M.) 244
Echinus esculentus L., pigment of (Goodwin, T. W. & Srisukh, S.) 69
§Economic aspects of the fishing industry (Cutting, C. L.) liv
Egg, embryonated hen, choline and methionine in (Boyd, G. S.) xlvii
*Electrometric method of Michel and Summerson for the estimation of cholinesterases (Davies, D. R. & Rutland, J. P.) xxi
Embryonated hen egg, choline and methionine in (Boyd, G. S.) xlvii
End group of polypeptides produced by action of papain on wool keratin (Blackburn, S.) 443
Endoconidiophora, volatile metabolic products of (Birkinshaw, J. H. & Morgan, E. N.) 55
Enzyme, 'de-branching', in bean and potato (Hobson, P. N., Whelan, W. J. & Peat, S.) xxxix
Enzyme, glucuronide-decomposing, in the rumen of sheep (Karunairatnam, M. C. & Levvy, G. A.) xxxi
Enzyme, Z-, role in β-amylolysis (Thomas, G. J., Whelan, W. J. & Peat, S.) xl
Enzymes, action of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149; (Wills, E. D. & Wormall, A.) 158
Enzymes, bacterial, inhibition by antitoxic sera (Macfarlane, M. G.) 267
Enzymes, breakdown of tobacco-leaf components by (Holden, M., Pirie, N. W. & Tracey, M. V.) 399; (Holden, M. & Tracey, M. V.) 407; (Holden, M.) 415; (Holden, M. & Tracey, M. V.) 421; (Holden, M.) 426
Enzymes, fungal, breakdown of tobacco-leaf components by (Holden, M.) 426
Enzymes of tobacco-leaf sap (Pirie, N. W.) 614
Enzymes, oxidizing, action of suramin on (Wills, E. D. & Wormall, A.) 158
Enzymic hydrolysis of phosphoric esters, rate of (Walker, P. G. & King, E. J.) 93
Eosin, formation of fluorescent salt with antrycide (Spinks, A.) 299
Epiphysis, phosphatase content of scorbutic guinea pigs (Perkins, H. R. & Zilva, S. S.) 306
Ergothioneine, determination of (Lawson, S., Morley, H. V. & Woolf, L. I.) 513
Erythrocyte *see also* Red blood corpuscle
Erythrocyte, horse, specificity of cholinesterase of (Mounter, L. A. & Whittaker, V. P.) 525
Erythrocytes, haemolytic activity of lecithinases towards (Macfarlane, M. G.) 270
Escherichia coli, β-glucuronidase of (Smith, E. E. B. & Mills, G. T.) xlix
Esterases of horse blood (Sturge, L. M. & Whittaker, V. P.) 518; (Mounter, L. A. & Whittaker, V. P.) 525
Esters, aliphatic, hydrolysis by cholinesterase of horse plasma (Sturge, L. M. & Whittaker, V. P.) 518
Ethanol, production by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Ethereal sulphate, conjugation of halogenobenzenes as (Spencer, B. & Williams, R. T.) 279
Ethyl methyl cellulose, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Evolution and bile salts (Haslewood, G. A. D. & Wootton, V.) 584
Extrahepatic lipid synthesis (Popják, G. & Beeckmans, M.-L.) 233
Eyes of desert locust and African migratory locust, redox pigment in (Goodwin, T. W. & Srisukh, S.) 549

Faeces, lipids of, in rats (Cook, R. P., Polgar, N. & Thomson, R. O.) 600
Faeces, stercobilin of, study using ^{15}N (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Fat, neutral, in nerves after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
§Fats in fish, chemistry and metabolism of (Lovern, J. A.) liv
Fatty acid synthesis, study by aid of deuterium and ^{14}C-labelled acetate (Popják, G. & Beeckmans, M.-L.) 233
Fatty acids, separation as anions by paper chromatography (Brown, F.) 598
Fermentable form of fructose (Hopkins, R. H. & Horwood, M.) 95
Fermentation, inhibition by suramin (Wills, E. D. & Wormall, A.) 158
Fermentation, pH of yeast cell during (Conway, E. J. & Downey, M.) 355
Fermentation process in tea manufacture (Roberts, E. A. H. & Wood, D. J.) 175
Fermenting yeast, excretion of pyruvic acid by (Conway, E. J. & Winder, F. C.) v
Fermenting yeast, relation of succinic and carbonic acids to the K^+ and H^+ exchange in (Conway, E. J. & Brady, T. G.) 360
Feulgen reaction, cytological interpretation of (Stedman, E. & Stedman, E.) 508
Fibre, leaf, action of *Helix* digestive juice on (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Fish, bile salts of (Haslewood, G. A. D. & Wootton, V.) 584; §(Haslewood, G. A. D.) liv
§Fish, comparative aspects of the biochemistry of (Baldwin, E.) liii
§Fish, carotenoids in (Goodwin, T. W.) liv
§Fish, fats in, chemistry and metabolism of (Lovern, J. A.) liv
§Fish, nitrogenous bases in, chemistry and metabolism of (Shewan, J. M.) liii
§Fish, proteins of (Hamoir, G.) liii
§Fishing industry, economic aspects of (Cutting, C. L.) liv
Fission, hydrolytic, of disulphides (Cecil, R.) 572
Flavanone, possible occurrence in leaf of walnut (Daglish, C.) 462
Flavianates of lysine (Heathcote, J. G.) 473
Flavin-adenine dinucleotide of rat liver *in vitro*, uptake of phosphate by (Good, W. & Leaf, G.) xlvi
Flavoproteins, fluorescence of (Weber, G.) 114
Flora, oral, metabolism of (Hartles, R. L. & Macdonald, N. D.) 60
Fluorescence of riboflavin and flavin-adenine dinucleotide (Weber, G.) 114

Fluoro compound, 'active', synthesized via the tricarboxylic acid cycle, mode of action of (Buffa, P., Lotspeich, W. D., Peters, R. A. & Wakelin, R. W.) xvii
Fluoroacetate, effect on fermentation by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Fluoroacetate poisoning of the tricarboxylic acid cycle (Buffa, P., Lotspeich, W. D., Peters, R. A. & Wakelin, R. W.) xvii
Fly, horse bot (*Gastrophilus intestinalis*), larva blood, composition of (Levenbook, L.) 336
Foetal plasma at delivery, amino-acid pattern in (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Folic acid, avidity for the ions of heavy metals (Albert, A.) ix
Frog, entrance rate of potassium chloride in the sartorius muscle of (Conway, E. J., Carey, M. & Moore, P. T.) iii
Frogs, new compounds from bile of (Haslewood, G. A. D. & Wootton, V.) 584
Fructofuranose in D-fructose (Hopkins, R. H. & Horwood, M.) 95
Fructose, distribution in fractionated specimens of human semen (Pryde, J.) xv
Fructose, fermentable form of (Hopkins, R. H. & Horwood, M.) 95
Fructose in blood of *Gastrophilus intestinalis* (Levenbook, L.) 336
Fungal enzymes, breakdown of tobacco-leaf components by (Holden, M.) 426
Fungal polygalacturonase, action on tobacco-leaf fibre (Holden, M.) 415
Fungi, mould, mechanism of the formation of organic acids by (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Fungi, wood-rotting, biochemistry of (Birkinshaw, J. H. & Morgan, E. N.) 55

Gallic acid, oxidation by tea oxidase (Roberts, E. A. H. & Wood, D. J.) 175
Gallstone, pig, examination of (Haslewood, G. A. D. & Wootton, V.) 584
Gastric acidity, theory for production of (Conway, E. J., Brady, T. G. & Carter, E.) 369
Gastric urease and hydrochloric acid secretion (Davies, R. E. & Kornberg, H. L.) ii
Gastro-intestinal tract, synthesis of fatty acids in (Popják, G. & Beeckmans, M.-L.) 233
Gastrophilus intestinalis larva blood, composition of (Levenbook, L.) 336
Gelatin, action of fungal enzymes on (Holden, M.) 426
Gelatin hydrolysate, isolation of lysine-free hydroxylysine from (Heathcote, J. G.) xxxiii
Germination of seeds, effect of quaternary ammonium salts on (Jones, R. L., Madinaveitia, J., Metcalfe, T. P. & Sexton, W. A.) 110
Glucose and transport of potassium in brain and retina (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Glucose, effect on oxygen uptake and acid production by human saliva (Hartles, R. L. & Macdonald, N. D.) 60
Glucose, formation of acetic and pyruvic acids in *Aspergillus niger* in media containing (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Glucose, inhibition by suramin (Wills, E. D. & Wormall, A.) 158
Glucose-1-phosphate, action of barley extracts on (Porter, H. K.) 476
Glucose, reaction with proteins in dried human blood plasma (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) xxx
Glucoside, hydrojuglone, identification of 'apparent vitamin C' of walnut with (Daglish, C.) 462
Glucoside, hydrojuglone, in walnut, determination and occurrence of (Daglish, C.) 458
Glucuronate, effect on glucuronide synthesis by mouse-liver slices (Storey, I. D. E.) 212
Glucuronic acid conjugation in resacetophenone, orientation of (Dodgson, K. S.) xi
Glucuronic acid, conjugation of halogenobenzenes by (Spencer, B. & Williams, R. T.) 279
β-Glucuronidase, action of acetate and other buffers in the assay of (Kerr, L. M. H., Levvy, G. A. & Walker, P. G.) xxx
β-Glucuronidase activity, spectrophotometric determination using *p*-chlorophenylglucuronide as substrate (Spencer, B. & Williams, R. T.) xiv
β-Glucuronidase, behaviour in rat liver during growth (Mills, G. T., Smith, E. E. B., Stary, B. & Leslie, I.) xlviii
β-Glucuronidase of *Escherichia coli* (Smith, E. E. B. & Mills, G. T.) xlix
Glucuronide-decomposing enzyme in the rumen of sheep (Karunairatnam, M. C. & Levvy, G. A.) xxxi
Glucuronide formation from chlorobenzene in rabbit (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Glucuronide, pregnanediol-like, the nature of (Brooksbank, B. W. L. & Haslewood, G. A. D.) 36
Glucuronides, excretion by rabbit after administration of xylenols (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 395
Glucuronides, synthesis by liver slices (Storey, I. D. E.) 212
L-Glutamate and transport of potassium in retina (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Glutamic acid accumulation in *Staphylococcus aureus* (Gale, E. F.) xxvi
Glutamic acid accumulation in *Staphylococcus aureus*, effect of inhibitors and antibiotics on (Gale, E. F. & Paine, T. F.) xxvi
Glutamic acid content of rat brain during insulin hypoglycaemia (Dawson, R. M. C.) 386
Glutamic acid content of rat liver during insulin hypoglycaemia (Dawson, R. M. C. & Williams, R. B.) 391
Glutamic acid, role in the transport of potassium in brain and retina (Terner, C., Eggleston, L. V. & Krebs, K. A.) 139
Glutamic decarboxylase, use in manometric determination of certain amino-acids (Krebs, H. A.) 605
Glutamine content of rat brain during insulin hypoglycaemia (Dawson, R. M. C.) 386
Glutamine content of rat liver during insulin hypoglycaemia (Dawson, R. M. C. & Williams, R. B.) 391
Glutamine in larval blood of *Gastrophilus intestinalis* (Levenbook, L.) 336
Glutathione, activation of adenosinetriphosphatase by (Humphrey, B. A. & Humphrey, G. F.) 238
Glutathione, reaction with silver nitrate (Cecil, R.) 572
Glyceride fatty acids, isotope contents after feeding labelled acetate (Popják, G. & Beeckmans, M.-L.) 233
Glycerophosphate fraction of rat liver, heterogeneity of (Olley, J. & Blewett, M.) 564
α-Glycerylphosphorylcholine, compound resembling, in extract of rat liver (Olley, J. & Blewett, M.) 564
Glycine, incorporation into porphyrins (Muir, H. M. & Neuberger, A.) 97
Glycine, incorporation of ^{15}N of, in stercobilin (Gray, C. H. & Neuberger, A.) 81
Glycine, labelled, ^{15}N content of stercobilin after feeding (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Glycine of haemoglobin, incorporation of ^{15}N into (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Glycoside, hydrojuglone, in walnut, isolation and identification of (Daglish, C.) 452
Glycosides, cardiac, configuration of the anomeric carbon atoms in (Klyne, W.) xli
Glycuronide of oestriol, identification of uronic acid from (Grant, J. K. & Marrian, G. F.) 1

Gonads of the limpets *Patella* spp., carotenoids of (Goodwin, T. W. & Taha, M. M.) 244
Gonads of the *Patella* spp., carotenoid distribution in (Goodwin, T. W.) 249
Growth hormone preparations, effect of certain treatments on the diabetogenic activity of (Reid, E.) xxvii
Guanine in deoxypentose nucleic acids (Wyatt, G. R.) vii

Haem, breakdown of, in the normal and porphyric (Gray, C. H. & Neuberger, A.) 81
Haem derivatives, *in vitro* formation of bile pigment from (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Haem of haemoglobin, incorporation of ^{15}N into (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Haematin, *in vitro* formation of bile pigment from (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Haemoglobin, action of fungal enzymes on (Holden, M.) 426
Haemoglobin, incorporation of ^{15}N into the haem and glycine of (Gray, C. H Muir, I. M. H. & Neuberger, A.) 542
Haemoglobin, kinetics of, in solution and in the red-blood corpuscle (Legge, J. W. & Roughton, F. J. W.) 43
Haemolymph of *Gastrophilus intestinalis*, study of (Levenbook, L.) 336
Haemolysis in patients with congenital porphyria, detection by isotope study (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Haemolytic acid present in horse brain (Morton, I. D. & Todd, A. R.) 327; (Goddard, E. D. & Alexander, A. E.) 331
Haemolytic acid, purification and identification as *cis*-octadec-11-enoic acid (*cis-heptadec-10-ene-1-carboxylic acid*) (Morton, I. D. & Todd, A. R.) 327
Haemolytic acid, X-ray examination of (Goddard, E. D. & Perutz, M. F.) 334
Haemolytic activity of lecithinases towards erythrocytes (Macfarlane, M. G.) 270
Hallachrome and dopachrome (Bu'Lock, J. D., Harley-Mason, J. & Mason, H. S.) xxxii
Halogenobenzenes, metabolism of (Spencer, B. & Williams, R. T.) 279
Heart-muscle preparation, oxidase system in (Borei, H.) 227
Heavy metals, ions of, avidity of folic acid and other pteridines (Albert, A.) ix
Helix, digestive juice of, action on defined substrates (Holden, M. & Tracey, M. V.) 407
Helix, digestive juice of, action on leaf fibre (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Hen egg, embryonated, choline and methionine in (Boyd, G. S.) xlvii
cis-Heptadec-10-ene-1-carboxylic acid (*cis*-octadec-11-enoic acid) purification and identification of haemolytic acid as (Morton, I. D. & Todd, A. R.) 327
Hexokinase, effect of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Hexokinase, inhibition by suramin (Wills, E. D. & Wormall, A.) 158
Hexoses, colorimetric method for determination of pentoses in presence of (Tracey, M. V.) 433
Histone, loss from cell nuclei during acid hydrolysis (Stedman, E. & Stedman, E.) 508
Hormone, adreno-corticotropic, response in urinary 'reducing steroid' excretion to stimulation of the adrenal cortex by (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
Hormone, growth, effect of certain treatments on the diabetogenic activity of preparations of (Reid, E.) xxvii
Horse blood, esterases of (Sturge, L. M. & Whittaker, V. P.) 518; (Mounter, L. A. & Whittaker, V. P.) 525
Horse bot fly (*Gastrophilus intestinalis*) larva blood, composition of (Levenbook, L.) 336
Horse brain, haemolytic acid in (Morton, I. D. & Todd, A. R.) 327; (Goddard, E. D. & Alexander, A. E.) 331
Horse brain, X-ray examination of haemolytic acid in (Goddard, E. D. & Perutz, M. F.) 334
Horse erythrocyte cholinesterase, specificity of (Mounter, L. A. & Whittaker, V. P.) 525
Horse plasma cholinesterase and ali-esterase, specificity of (Sturge, L. M. & Whittaker, V. P.) 518
Hydrochloric acid secretion, gastric urease and (Davies, R. E. & Kornberg, H. L.) ii
Hydrogen bond, possible existence in glutathione (Cecil, R.) 572
Hydrogen peroxide, formation and elimination by spermatozoa (Tosic, J. & Walton, A.) 199
Hydrogen peroxide, sorption by wool (Alexander, P., Carter, D. & Earland, C.) 251
Hydrojuglone glucoside, identification of 'apparent vitamin C' of walnut with (Daglish, C.) 462
Hydrojuglone glucoside in walnut, determination and occurrence of (Daglish, C.) 458
Hydrojuglone glycoside in walnut, isolation and identification of (Daglish, C.) 452
Hydrolysis, fission of disulphides by (Cecil, R.) 572
Hydrolysis of amides by tissue extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Hydroxylation of naphthylamine and derivatives *in vivo* by the rat (Manson, L. A. & Young, L.) 170
Hydroxylysine, lysine-free, isolation from a gelatin hydrolysate (Heathcote, J. G.) xxxiii
Hyperglycaemia associated with beri-beri in pigeons, effect of 2-amino-5-methylthiazole-4-carboxylic acid on (Di Maggio, G.) 562
Hypoglycaemia, insulin, glutamine and glutamic acid content during (Dawson, R. M. C.) 386; (Dawson, R. M. C. & Williams, R. B.) 391

Indicator yellow, use in studies on rhodopsin (Collins, F. D. & Morton, R. A.) 10
Indole derivatives, spectral data on colours with Ehrlich's reagent (Goodwin, T. W. & Srisukh, S.) 549
Infants, premature, metabolism of tyrosine and phenylalanine in (Woolf, L. I. & Edmunds, M. E.) 630
Inhibition of aerobic metabolism of spermatozoa by catalase and peroxidase (Tosic, J. & Walton, A.) 199
Inhibitors, effect on glutamic acid accumulation and protein synthesis in *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) xxvi
Inhibitors of plant growth (Jones, R. L., Madinaveitia, J., Metcalfe, T. P. & Sexton, W. A.) 110
Inner region of yeast cell, pH during fermentation (Conway, E. J. & Downey, M.) 355
Inosinetriphosphate in myotoxin (Bielschowsky, M.) 105
Insectorubin in locusts (Goodwin, T. W. & Srisukh, S.) 549; (Goodwin, T. W.) 554
Insulin hypoglycaemia, glutamine and glutamic acid content during (Dawson, R. M. C.) 386; (Dawson, R. M. C. & Williams, R. B.) 391
Integument of desert locust and African migratory locust, redox pigment of (Goodwin, T. W. & Srisukh, S.) 549
Intestine, inhibitor of vitamin B_{12} in (Shaw, G. E.) xxxv
Intestine, synthesis of cholesterol in (Popják, G. & Beeckmans, M.-L.) 233
Iodide space in the thyroid gland of dogs (McClendon, J. F., Foster, W. C. & Reed, E.) 53
Iodine trichloride, reaction of vitamin D with (Green, J.) i
Iodine uptake, use in testing mercaptoglyoxalines for antithyroid activity (Searle, C. E., Lawson, A. & Hemmings, A. W.) 77
Iodobenzene, metabolism of (Spencer, B. & Williams, R. T.) 279

Iodobismuthous acid in determination of ergothioneine (Lawson, A., Morley, H. V. & Woolf, L. I.) 513
Ion-exchange resins, application of (Gilbert, G. A. & Swallow, A. J.) 502
Ions of heavy metals, avidity of folic acid and other pteridines (Albert, A.) ix
Iron, avidity of amino-acids for (Albert, A.) 531
Isotopes, radioactive, use in immunological investigations (Banks, T. E., Francis, G. E., Franklin, K. J. & Wormall, A.) 374; (Francis, G. E. & Wormall, A.) 380

Jack bean, action of suramin on (Wills, E. D. & Wormall, A.) 158
Jerusalem artichoke, transfructosidation in (Edelman, J. & Bacon, J. S. D.) xlii
Juglans regia see Walnut
Juice, digestive, of *Helix*, action on defined substrates (Holden, M. & Tracey, M. V.) 407

K^+ and H^+ exchange in fermenting yeast, relation to succinic and carbonic acids (Conway, E. J. & Brady, T. G.) 360
Kephalin, behaviour in toxin of *Clostridium haemolyticum* (Macfarlane, M. G.) 267
Keratin, wool, action of papain on (Blackburn, S.) 443
α-Ketoglutaric acid, determination of (Krebs, H. A.) 605
Ketoses, organic catalysts of the oxidation of (Pryde, J.) xii
Kidney extracts, hydrolysis of amides by (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Kidney phosphatase, relationship with plasma phosphatase (Motzok, I.) 193
Kidney, rat, vitamin A in (Eden, E. & Moore, T.) vi
Kidneys of male and female rats, vitamin A in (Moore, T. & Sharman, I. M.) xliii
Kidneys of rabbit, zinc content after injection of ^{65}Zn (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Kinetic studies of the metabolism of foreign organic compounds (Bray, H. G., Thorpe, W. V. & White, K.) xiii
Kinetics of haemoglobin in solution and in the red blood corpuscle (Legge, J. W. & Roughton, F. J. W.) 43
Kinetics of hydrolysis of glutathione and cystine (Cecil, R.) 572

Lactate and transport of potassium in retinae (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Lactating mammary tissue, 2:4-dinitrophenol in the study of pathways of pyruvate metabolism in (Terner, C.) xlix
Larva blood of *Gastrophilus intestinalis*, composition of (Levenbook, L.) 336
Leaf, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Leaf fibre, action of *Helix* digestive juice on (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Leaf, tobacco, breakdown by enzymes (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Lecithin, decomposition to phosphorylcholine by toxin of *Clostridium haemolyticum* (Macfarlane, M. G.) 267
Lecithin in nerves after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Lecithinase activity of *Clostridium haemolyticum* toxin (Macfarlane, M. G.) 267
Lecithinases, haemolytic activity towards erythrocytes (Macfarlane, M. G.) 270
Leukaemia, bone marrow from cases of (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Limpets, *Patella* spp., carotenoid distribution in the gonads of (Goodwin, T. W.) 249
Limpets, *Patella* spp., carotenoids of the gonads of (Goodwin, T. W. & Taha, M. M.) 244
Lipid, extrahepatic, synthesis of (Popják, G. & Beeckmans, M.-L.) 233
Lipids after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Lipids, faecal, of rats (Cook, R. P., Polgar, N. & Thomson, R. O.) 600
Lipovitellin, ^{32}P-labelled, fate of (Banks, T. E., Francis, G. E., Franklin, K. J. & Wormall, A.) 374
Lipovitellin, ^{32}P-labelled, use in study of antibodies (Francis, G. E. & Wormall, A.) 380
Liver extracts, hydrolysis of amides by (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Liver homogenates, respiring, glutamic and aspartic acids in (Krebs, H. A.) 605
Liver of rabbit, zinc content after injection of ^{65}Zn (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Liver of rabbits, lipovitellin in, after injection (Banks, T. E., Francis, G. E., Franklin, K. J. & Wormall, A.) 374
Liver phosphatase, relationship with plasma phosphatase (Motzok, I.) 193
*Liver preparations, metabolism of pregnane-3α:20α-diol by (Grant, J. K. & Marrian, G. F.) 497, xxx
Liver, rat, behaviour during growth of β-glucuronidase and nucleic acids (Mills, G. T., Smith, E. E. B., Stary, B. & Leslie, I.) xlviii
Liver, rat, glutamine and glutamic acid content during insulin hypoglycaemia (Dawson, R. M. C. & Williams, R. B.) 391
Liver, rat, heterogeneity of the glycerophosphate fraction of (Olley, J. & Blewett, M.) 564
Liver, rat, uptake of phosphate by flavin-adenine dinucleotide *in vitro* (Good, W. & Leaf, G.) xlvi
Liver slices, synthesis of glucuronides by (Storey, I. D. E.) 212
Liver, synthesis of cholesterol in (Popják, G. & Beeckmans, M.-L.) 233
Lizards, new compounds from bile of (Haslewood, G. A. D. & Wootton, V.) 584
Locust, desert and African migratory, metabolism of insectorubin in (Goodwin, T. W.) 554
Locusta migratoria migratorioides R. & F., metabolism of insectorubin in (Goodwin, T. W.) 554
Locusta migratoria migratorioides R. & F., redox pigment present in the integument and eyes of (Goodwin, T. W. & Srisukh, S.) 549
Lung, rabbit, lipovitellin in, after injection (Banks, T. E., Francis, G. E., Franklin, K. J. & Wormall, A.) 374
Lung, rabbit, zinc content after injection of ^{65}Zn (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Lung, synthesis of fatty acids in (Popják, G. & Beeckmans, M.-L.) 233
Lysine, flavianates of (Heathcote, J. G.) 473

Magnesium, action of chick plasma phosphatase by (Motzok, I. & Wynne, A. M.) 187
Magnesium, activation of adenosinetriphosphatase by (Humphrey, B. A. & Humphrey, G. F.) 238
Magnesium, avidity of amino-acids for (Albert, A.) 531
Mammalian bones, degree of calcification of (Wiedman, S. M. & Rogers, H. J.) 493
Mammalian pancreatic enzyme, action on tobacco-leaf components (Holden, M. & Tracey, M. V.) 421
Mammals, bile salts of (Haslewood, G. A. D. & Wootton, V.) 584
Mammary tissue, lactating, 2:4-dinitrophenol in the study of pathways of pyruvate metabolism (Terner, C.) xlix
Manganese, avidity of amino-acids for (Albert, A.) 531
Manometric determination of L-aspartic acid and L-asparagine (Krebs, H. A.) 605
Marrow, bone, breakdown of haem in congenital porphyria (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Marrow cells, human, content of nucleic acids in (Davidson, J. N., Leslie, I. & White, J. C.) xvi

Maternal plasma at delivery, amino-acid pattern in (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Megaloblastic anaemias, marrow from cases of (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Membrane of outer region of yeast cell, permeability of (Conway, E. J. & Downey, M.) 347
Mercaptoglyoxalines, antithyroid activity of (Searle, C. E., Lawson, A. & Hemmings, A. W.) 77
Mercapturic acid, conjugation of halogenobenzenes by (Spencer, B. & Williams, R. T.) 279
Mercapturic acid formation from chlorobenzene in rabbit (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Merthiolate, inhibition of adenosinetriphosphatase activity of rabbit-muscle extract by (Humphrey, B. A. & Humphrey, G. F.) 238
Metabolic region, outer, of the yeast cell (Conway, E. J. & Downey, M.) 347
Metabolism of chlorobenzene in the rabbit (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Metabolism of foreign organic compounds, kinetic studies of (Bray, H. G., Thorpe, W. V. & White, K.) xiii
Metabolism of halogenobenzenes (Spencer, B. & Williams, R. T.) 279
Metabolites, phenolic, excretion in premature infants (Woolf, L. I. & Edmunds, M. E.) 630
Metal-binding properties of riboflavin (Albert, A.) xxvii
Metals, heavy, avidity of folic acid and other pteridines for the ions of (Albert, A.) ix
Metals, trace, avidity of naturally occurring substances for: amino-acids (Albert, A.) 531
Methionine in the embryonated hen egg (Boyd, G. S.) xlvii
Methionine, non-occurrence in hydrolysates of soil proteins (Bremner, J. M.) 538
Methyl groups, choline, biosynthesis in the rat (Arnstein, H. R. V.) xviii
5-Methylcytosine in deoxypentose nucleic acids (Wyatt, G. R.) vii
2-Methylhept-2-en-6-ol from *Endoconidiophora* (Birkinshaw, J. H. & Morgan, E. N.) 55
2-Methylhept-2-en-6-one from *Endoconidiophora* (Birkinshaw, J. H. & Morgan, E. N.) 55
Methyne carbon atoms of porphyrins, origin of (Muir, H. M. & Neuberger, A.) 97
Micrococcus lysodeikticus, oxalacetic decarboxylase (Herbert, D.) i
Microdiffusion methods (Conway, E. J. & Downey, M.) iv
Mitochondria, succinoxidase activity of, inhibition by *Clostridium welchii* toxin (Macfarlane, M. G.) xxix
Molluscan shells, acid-soluble pigments of (Comfort, A.) 254
Monoaminophospholipin in nerves after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Monoiodoacetate, effect on fermentation by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Monolayer technique for examination of haemolytic acid (Goddard, E. D. & Alexander, A. E.) 331
Monothiophosphonates, preparation of (Holiday, E. R., Philpot, J. St L. & Stocken, L. A.) 637
Motility of spermatozoa, effect of hydrogen peroxide on (Toxic, J. & Walton, A.) 199
Mould fungi, mechanism of the formation of organic acid by (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Mucopolysaccharide of the cornea (Woodin, A. M.) xxxvii
Mucosa phosphatase, intestinal, relationship with plasma phosphatase (Motzok, I.) 193
Muscle, acetone-dried, preparation of adenosinediphosphate, preparation from magnesium adenosinetriphosphate (Bielschowsky, M.) 105
Muscle, pigeon breast, metabolism of acetate in (Davison, M. & Gibson, Q. H.) 1 (*Proc.*)
Muscle preparation, heart, oxidase system in (Borei, H.) 227
Muscle, rabbit, breakdown of adenosinetriphosphate in extracts of (Humphrey, B. A. & Humphrey, G. F.) 238
Muscle, sartorius, of the frog, entrance rate of potassium chloride into (Conway, E. J., Carey, M. & Moore, P. T.) iii
Mustard gas, sodium ethanemonothiophosphonate as an antidote to (Holiday, E. R., Philpot, J. St L. & Stocken, L. A.) 637
Myofibrils, isolated, adenosinetriphosphatase activity of (Perry, S. V.) xxxviii
Myokinase, use in assay of adenosinetriphosphate (Rowles, S. L. & Stocken, L. A.) 489
Myosin, use in assay of adenosinetriphosphate (Rowles, S. L. & Stocken, L. A.) 489
Myotoxin, toxic principle of, identification as magnesium adenosinetriphosphate (Bielschowsky, M.) 105
Myxoxanthin, probable identity with echininone (Goodwin, T. W. & Taha, M. M.) 244

2-Naphthylamine, metabolism in dog and cat (Clayson, D. B.) xlvi
2-Naphthylamine, metabolism of (Manson, L. A. & Young, L.) 170
Nerve crush (axonotmesis), lipids after (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Nerve, peripheral, during Wallerian degeneration, chemical changes in (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Nickel, avidity of amino-acids for (Albert, A.) 531
Nicotinic acid in rat brain, biological activity of (Chaudhuri, D. K. & Kodicek, E.) xxxiv
Nitrogen content of bones (Wiedman, S. M. & Rogers, H. J.) 493
Nitrogen (^{15}N) incorporation into the haem and glycine of haemoglobin (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Nitrogen, isotopic, incorporation in the stercobilin in the normal and in the porphyric (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
§Nitrogenous bases in fish, chemistry and metabolism of (Shewan, J. M.) liii
Nuclei, cell, changes during Feulgen reaction (Stedman, E. & Stedman, E.) 508
Nucleic acid, loss from cell nuclei during acid hydrolysis (Stedman, E. & Stedman, E.) 508
Nucleic acids, behaviour in rat liver during growth (Mills, G. T., Smith, E. E. B., Stary, B. & Leslie, I.) xlviii
Nucleic acids, content in human marrow cells (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Nucleic acids, deoxypentose, quantitative analysis of (Wyatt, G. R.) vii
Nucleoprotein with some similarity to plant viruses, isolation from normal tobacco leaves (Pirie, N. W.) 614
Nutriacholic acid, isolation from bile acid (Haslewood, G. A. D. & Wootton, V.) 584
Nylon, sorption of hydrogen peroxide by (Alexander, P., Carter, D. & Earland, C.) 251

Obituary notice of T. H. Milroy (Eggleton, P.) 385
cis-Octadec-11-enoic acid, purification and identification of haemolytic acid in horse brain as (Morton, I. D. & Todd, A. R.) 327
Octadecenoic acids, examination by monolayer technique (Goddard, E. D. & Alexander, A. E.) 331
Octadecenoic acids, X-ray examination of (Goddard, E. D. & Perutz, M. F.) 334
Oestriol monoglucuronide, identification of uronic acid from (Grant, J. K. & Marrian, G. F.) 1
Oral flora, metabolism of (Hartles, R. L. & Macdonald, N. D.) 60
Organic acids, fate in rabbit (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294

Osteoblasts, disturbance of function in scorbutic guinea pigs (Perkins, H. R. & Zilva, S. S.) 306
Outer metabolic region of the yeast cell (Conway, E. J. & Downey, M.) 347
Outer region of yeast cell, pH during fermentation (Conway, E. J. & Downey, M.) 355
Ovaries of *Patella*, green pigment '*Y*' in (Goodwin, T. W. & Taha, M. M.) 244
Ovaries of *Patella* spp., distribution of carotenoids in (Goodwin, T. W.) 249
Ovaries, synthesis of cholesterol in (Popják, G. & Beeckmans, M.-L.) 233
Oxalacetic decarboxylase (Herbert, D.) i
Oxaloacetic decarboxylase, use in manometric determination of certain amino-acids (Krebs, H. A.) 605
Oxidase preparations, cytochrome, reactivation and protection of (Borei, H.) 227
Oxidase, tea, oxidation of substrates by (Roberts, E. A. H. & Wood, D. J.) 175
Oxidizing agents, reaction with wool (Alexander, P., Carter, D. & Earland, C.) 251
Oxygen uptake, by mixed human saliva in the presence and absence of glucose (Hartles, R. L. & Macdonald, N. D.) 60

Pancreas, pigeon, synthesis and secretion of amylase *in vitro* by (Hokin, L. E.) xlvi
Pancreatic enzyme, mammalian, action on tobacco-leaf components (Holden, M. & Tracey, M. V.) 421
Papain, action on wool keratin (Blackburn, S.) 443
Paper chromatography, bridge unit for (Kawerau, E.) xxi
Paper chromatography, separation of *p*-aminobenzoic acid derivatives by (Kelemen, E., Tanos, B. & Halmagyi, D.) 138
Paper chromatography, separation of fatty acids as anions by (Brown, F.) 598
Paper chromatography, use for the detection of phenolic compounds in metabolic studies (Bray, H. G., Lake, H. J., Thorpe, W. V. & White, K.) xiii
Paracentrotus lividus (Lamarck), pigments of (Goodwin, T. W. & Srisukh, S.) 69
Patella spp., carotenoid distribution in the gonads of (Goodwin, T. W.) 249
Patella spp., carotenoids of the gonads of (Goodwin, T. W. & Taha, M. M.) 244
Pea seedlings, etiolated, aspartic and glutamic acids in (Krebs, H. A.) 605
Pectic acid, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Pectin, chromatographic examination of the products of the action of pectinase on (Jermyn, M. A. & Tomkins, R. G.) 437
Pentoses, colorimetric method for determination in presence of hexoses and uronic acids (Tracey, M. V.) 433
Perhydroxylation of chlorobenzene by rabbit (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Peripheral nerve during Wallerian degeneration, chemical changes in (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Permeability of membrane of outer region of yeast cell (Conway, E. J. & Downey, M.) 347
Pernicious anaemia, marrow from cases of (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Peroxidase, inhibition of aerobic metabolism of spermatozoa by (Tosic, J. & Walton, A.) 199
pH changes during dialysis (Gilbert, G. A. & Swallow, A. J.) 506
pH values of yeast cells (Conway, E. J. & Downey, M.) 355
Phenanthrene, conversion into dehydroxydihydrophenanthrenes by rats and rabbits (Boyland, E. & Wolf, G.) 64
Phenolic compounds in metabolic studies, use of paper chromatography for the detection of (Bray, H. G., Lake, H. J., Thorpe, W. V. & White, K.) xiii
Phenolic metabolites, excretion in premature infants (Woolf, L. I. & Edmunds, M. E.) 630
Phenols, halogenated, metabolism of (Spencer, B. & Williams, R. T.) 279
Phenyl phosphates, carboxy-substituted, rate of enzymic hydrolysis of (Walker, P. G. & King, E. J.) 93
Phenylalanine, metabolism in premature infants (Woolf, L. I. & Edmunds, M. E.) 630
ω-Phenyl-substituted fatty acid amides, hydrolysis by rabbit-liver extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Phosphatase, alkaline, content of serum of young guinea pigs, influence of scurvy and fall of weight on (Perkins, H. R. & Zilva, S. S.) 306
Phosphatase, alkaline, inhibition of (Diczfalusy, E., Aldman, B., Högberg, B. & Rosenberg, T.) xlii
Phosphatase, plasma, of normal and rachitic chicks (Motzok, I. & Wynne, A. M.) 187; (Motzok, I.) 193, 196
Phosphatases of tobacco-leaf sap (Pirie, N. W.) 614
Phosphate bonds, high-energy, and glucuronide synthesis (Storey, I. D. E.) 212
Phosphate permeability, azide effect in yeast with respect to (Conway, E. J. & Moore, P. T.) iii
Phosphate, uptake by flavin-adenine dinucleotide of rat liver *in vitro* (Good, W. & Leaf, G.) xlvi
Phosphates, inorganic and creatine, of the brain tissue, metabolic maintenance *in vitro* (McIlwain, H. & Cheshire, J. D.) xviii
Phospholipin fatty acids, isotope contents after feeding labelled acetate (Popják, G. & Beeckmans, M.-L.) 233
Phospholipin in nerves after nerve crush (axonotmesis) (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Phospholipins, antibodies to (Francis, G. E. & Wormall, A.) 380
Phospholipins, hydrolysis by toxins of *Clostridium* species (Macfarlane, M. G.) 270
Phosphoric esters, periodate-reacting, in glycerophosphate fraction of rat liver (Olley, J. & Blewett, M.) 564
Phosphoric esters, rate of enzymic hydrolysis of (Walker, P. G. & King, E. J.) 93
Phosphorylase, detection in barley (Porter, H. K.) 476
Phosphorylases, plant, inhibition by β-amylase (Porter, H. K.) 476
Phosphorylcholine, formation from lecithin by *Clostridium haemolyticum* toxin (Macfarlane, M. G.) 267
Picolinamides, substituted, hydrolysis by rabbit-liver extracts (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 294
Pigeon brain, aneurin-deficient, effect of co-carboxylase on formation of acetate by homogenates of (Coxon, R. V.) xxxvii
Pigeon breast muscle, metabolism of acetate in (Davison, M. & Gibson, Q. H.) 1 (*Proc.*)
Pigeon pancreas slices, synthesis and secretion of amylase *in vitro* (Hokin, L. E.) xlvi
Pigeons, vitamin B_T-like activity of 2-amino-5-methylthiazole-4-carboxylic acid in (Di Maggio, G.) 562
Pigment, bile, formation *in vitro* from haem derivatives (Kench, J. E., Gardikas, C. & Wilkinson, J. F.) 129
Pigment, bile, study of metabolism using ^{15}N (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Pigments, acid-soluble, of molluscan shells (Comfort, A.) 254
Pigments of the sea urchins *Echinus esculentus* (L.) and *Paracentrotus lividus* (Lamarck) (Goodwin, T. W. & Srisukh, S.) 69
Pigments, visual (Collins, F. D. & Morton, R. H.) 3
Pinctada vulgaris, identity of some subsidiary fractions derived from (Comfort, A.) 254

Placental function, possible impairment in toxaemia (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Plant growth, relation between constitution and effect of quaternary ammonium salts (Jones, R. L., Madinaveitia, J., Metcalfe, T. P. & Sexton, W. A.) 110
Plant phosphorylases, inhibition by β-amylase (Porter, H. K.) 476
Plasma, determination of antrycide in (Spinks, A.) 299
Plasma, dried human blood, reaction between proteins and glucose in (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) xxx
Plasma, dried human blood, reaction with reducing sugars (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) 626
Plasma, foetal and maternal, amino-acid pattern at delivery (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Plasma, horse, specificity of cholinesterase and ali-esterase of (Sturge, L. M. & Whittaker, V. P.) 518
Plasma phosphatase of normal and rachitic chicks (Motzok, I. & Wynne, A. M.) 187; (Motzok, I.) 193, 196
Plasma, rabbit, suramin concentration after injection (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Polycyclic compounds, metabolism of (Boyland, E. & Wolf, G.) 64
Polygalacturonase from moulds, action on pectic acid (Jermyn, M. A. & Tomkins, R. G.) 437
Polygalacturonase, fungal, action on tobacco-leaf fibre (Holden, M.) 415
Polygalacturonase of snail digestive juice (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Polypeptides as components of bacitracin (ayfivin) (Newton, G. G. F. & Abraham, E. P.) 257
Polypeptides, production by action of papain on wool keratin (Blackburn, S.) 443
Polysaccharidases of snail digestive juice (Holden, M., Pirie, N. W. & Tracy, M. V.) 399
Polysaccharides, action of fungal enzymes on (Holden, M.) 426
Polysaccharides, action of snail digestive juice on (Holden, M. & Tracey, M. V.) 407
Polysaccharides composing the cell wall of baker's yeast (Bell, D. J. & Northcote, D. H.) li
Porphyria, congenital, excretion of urobilinogen in (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Porphyria, congenital, studies in (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Porphyria, incorporation of ^{15}N into stercobilin in (Gray, C. H. & Neuberger, A.) 81
Porphyrins, biogenesis of (Muir, H. M. & Neuberger, A.) 97
Potassium chloride, entrance rate into the whole isolated sartorius muscle of the frog and into single fibres (Conway, E. J., Carey, M. & Moore, P. T.) iii
Potassium exchange of brain and retina (Krebs, H. A., Eggleston, L. V. & Terner, C.) xxxiv
Potassium permeability, azide effect in yeast with respect to (Conway, E. J. & Moore, P. T.) iii
Potassium, role of glutamic acid in the transport in brain and retina (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Potato, 'de-branching' enzyme of (Hobson, P. N., Whelan, W. J. & Peat, S.) xxxix
Pregnancy, toxaemia of, and α-amino-acid nitrogen of plasma (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Pregnanediol-like glucuronide, the nature of (Brooksbank, B. W. L. & Haslewood, G. A. D.) 36
Pregnane-3α:20α-diol, metabolism by liver preparations (Grant, J. K. & Marrian, G. F.) 497; xxx*
Premature infants, metabolism of tyrosine and phenylalanine in (Woolf, L. I. & Edmunds, M. E.) 630
Progesterone, metabolism *in vitro* (Grant, J. K. & Marrian, G. F.) 497
Protein content of rat brain during insulin hypoglycaemia (Dawson, R. M. C.) 386
Protein material in soil, amino-acid composition of (Bremner, J. M.) 538
Protein synthesis in *Staphylococcus aureus* (Gale, E. F.) xxvi
Protein synthesis in *Staphylococcus aureus*, effect of inhibitors and antibiotics on (Gale, E. F. & Paine, T. F.) xxvi
Proteins, action of fungal enzymes on (Holden, M.) 426
Proteins, action of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Proteins, damage by contact with ion-exchange resins (Gilbert, G. A. & Swallow, A. J.) 502
§Proteins of fish (Hamoir, G.) liii
Proteins of rat liver during insulin hypoglycaemia (Dawson, R. M. C. & Williams, R. B.) 391
Proteins, ^{32}P-containing, injected, fate of (Banks, T. E., Francis, G. E., Franklin, K. J. & Wormall, A.) 374
Proteins, protection of enzymes against suramin by (Wills, E. D. & Wormall, A.) 158
Proteins, reaction in the 'dry' state with reducing sugars (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) 626
Proteins, reaction with glucose in dried human blood plasma (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) xxx
Proteins, reactivation of and oxidase system of heart muscle (Borei, H.) 227
Protoporphyrin, origin of nitrogen in (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Pteridines, avidity for the ions of heavy metals (Albert, A.) ix
Purines, quenching of fluorescence of riboflavin by (Weber, G.) 114
Pyrogallol, oxidation by tea oxidase (Roberts, E. A. H. & Wood, D. J.) 175
Pyrophosphatase, inorganic, of rabbit muscle (Humphrey, B. A. & Humphrey, G. F.) 238
Pyrophosphoric esters of phenols (Walker, P. G. & King, E. J.) 93
Pyrrole derivatives from degradation of insectorubin (Goodwin, T. W. & Srisukh, S.) 549
Pyrrole derivatives, spectral data on colours with Ehrlich's reagent (Goodwin, T. W. & Srisukh, S.) 549
Pyruvate and transport of potassium in retinae (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Pyruvate metabolism in lactating mammary tissue, 2:4-dinitrophenol in the study of pathways of (Terner, C.) xlix
Pyruvic acid, excretion by fermenting yeast (Conway, E. J. & Winder, F. C.) v
Pyruvic acid, formation in *Aspergillus niger* growing in glucose media (Chughtai, M. I. D., Pearce, A. A. & Walker, T. K.) 135
Pythocholic acid from bile of python (Haslewood, G. A. D. & Wootton, V.) 584
Python, new bile acid from (Haslewood, G. A. D. & Wootton, V.) 584

Quaternary ammonium salts, effect on plant growth (Jones, R. L., Madinaveita, J., Metcalfe, T. P. & Sexton, W. A.) 110
Quenching of fluorescence of riboflavin (Weber, G.) 114

Rabbit, chlorobenzene metabolism in (Smith, J. N., Spencer, B. & Williams, R. T.) 284
Rabbit, fate of xylenes and xylenols in (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 395
Rabbit muscle, breakdown of adenosinetriphosphate in extracts of (Humphrey, B. A. & Humphrey, G. F.) 238
Rachitic chicks, plasma phosphatase of (Motzok, I. & Wynne, A. M.) 187; (Motzok, I.) 193, 196

Radioactive isotopes, use in immunological investigations (Banks, T. E., Francis, G. E., Franklin, K. J. & Wormall, A.) 374; (Francis, G. E. & Wormall, A.) 380
Rat, biological activity of purified preparations of a bound form of nicotinic acid present in the brain of (Chaudhuri, D. K. & Kodicek, E.) xxxiv
Rat, biosynthesis of choline methyl groups in (Arnstein, A.) xviii
Rat brain, glutamine and glutamic acid content during insulin hypoglycaemia (Dawson, R. M. C.) 386
Rat, effect of dehydration by hypertonic saline on the water content of organs of the rat (McCance, R. A. & Robinson, J. R.) xxv
Rat kidney, vitamin A in (Eden, E. & Moore, T.) vi
Rat liver, behaviour during growth of β-glucuronidase and nucleic acids (Mills, G. T., Smith, E. E. B., Stary, B. & Leslie, I.) xlviii
Rat liver, glutamine and glutamic acid content during insulin hypoglycaemia (Dawson, R. M. C. & Williams, R. B.) 391
Rat liver, heterogeneity of the glycerophosphate fraction of (Olley, J. & Blewett, M.) 564
Rat, metabolism of cholesterol in (Cook, R. P., Polgar, N. & Thomson, R. O.) 600
Rats, vitamin A in the kidneys of (Moore, T. & Sharman, I. M.) xliii
Red blood corpuscle, observations on the kinetics of haemoglobin in (Legge, J. W. & Roughton, F. J. W.) 43
Redox pigment in the integument and eyes of the desert locust and African migratory locust (Goodwin, T. W. & Srisukh, S.) 549
Redox theory for biological production of acid and alkali in yeast with application to production of gastric acidity (Conway, E. J., Brady, T. G. & Carton, E.) 369
'Reducing steroid' of urine, response in excretion to stimulation of the adrenal cortex by adreno-corticotropic hormone (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
Reducing sugar in blood, determination of (Ramsay, W. N. M.) xli
Reptiles, bile salts of (Haslewood, G. A. D. & Wootton, V.) 584
Resacetophenone, orientation of glucuronic acid conjugation in (Dogdson, K. S.) xi
Resins, ion-exchange, application of (Gilbert, G. A. & Swallow, A. J.) 502
Retina, potassium exchange of (Krebs, H. A., Eggleston, L. V. & Terner, C.) xxxiv
Retina, role of glutamic acid in the transport of potassium in (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Retinene, relationship to indicator yellow (Collins, F. D. & Morton, R. A.) 10
Rhodopsin, methods of extraction and absorption spectrum (Collins, F. D. & Morton, R. A.) 3
Rhodopsin, use of indicator yellow in studies on (Collins, F. D. & Morton, R. A.) 10
Rhodopsin, use of transient orange in studies on (Collins, F. D. & Morton, R. A.) 18
Riboflavin, fluorescence of (Weber, G.) 114
Riboflavin, metal-binding properties of (Albert, A.) xxvii
Ribonucleic acid phosphorus content of human bone marrow (Davidson, J. N., Leslie, I. & White, J. C.) xvi
Rumen, sheep, glucuronide-decomposing enzyme in (Karunairatnam, M. C. & Levvy, G. A.) xxxi
Rutin, oxidation by tea oxidase (Roberts, E. A. H. & Wood, D. J.) 175

Salicylaldoxime, effect on fermentation by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Saline for *Gastrophilus intestinalis* (Levenbook, L.) 336
Saline, hypertonic, dehydration by, effect on the water content of a number of organs in the rat (McCance, R. A. & Robinson, J. R.) xxv
Saliva, human, the oxygen uptake and acid production by, in the presence and absence of glucose (Hartles, R. L. & Macdonald, N. D.) 60
Salivary enzymes, mammalian, action on tobacco-leaf components (Holden, M. & Tracey, M. V.) 421
Sap sediment of tobacco leaves, chloroplast fraction of (Holden, M., Pirie, N. W. & Tracey, M. V.) 399
Sartorius muscle of frog, entrance rate of potassium chloride into (Conway, E. J., Carey, M. & Moore, P. T.) iii
Schiff's reagent, use in Feulgen staining reaction (Stedman, E. & Stedman, E.) 508
Schistocerca gregaria Forsk., metabolism of insectorubin in (Goodwin, T. W.) 554
Schistocerca gregaria Forsk., redox pigment present in the integument and eyes of (Goodwin, T. W. & Srisukh, S.) 549
Scurvy, influence on alkaline phosphatase content of serum and the zones of provisional calcification in young guinea pigs (Perkins, H. R. & Zilva, S. S.) 306
Sea urchins, pigments of (Goodwin, T. W. & Srisukh, S.) 69
Secretion, hydrochloric acid, gastric urease and (Davies, R. E. & Kornberg, H. L.) ii
Seed germination, effect of quaternary ammonium salts on (Jones, R. L., Madinaveitia, J., Metcalfe, T. P. & Sexton, W. A.) 110
Semen, human, distribution of fructose in fractionated specimens of (Pryde, J.) xv
Sera, antitoxic, inhibition of *Clostridium haemolyticum* lecithinase (Macfarlane, M. G.) 267
Serum albumins, interaction with calcium (Martin, N. H. & Perkins, D. J.) 323
Serum, reactivation of and oxidase system of heart muscle (Borei, H.) 227
Sex, influence on the storage of vitamin A (Booth, V. H.) xliii
Sheep, glucuronide-decomposing enzyme in the rumen of (Karunairatnam, M. C. & Levvy, G. A.) xxxi
Shells, molluscan, acid-soluble pigments of (Comfort, A.) 254
Silk, sorption of hydrogen peroxide by (Alexander, P., Carter, D. & Earland, C.) 251
Silver nitrate, quantitative reactions of thiols and disulphides with (Cecil, R.) 572
Skeletal tissues, studies on (Wiedman, S. M. & Rogers, H. J.) 493
Snakes, new compounds from bile of (Haslewood, G. A. D. & Wootton, V.) 584
Sodium diethyldithiocarbamate, effect on fermentation by yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Sodium ethanemonothiophosphonate, an antidote to mustard gas (Holiday, E. R., Philpot, J. St L. & Stocken, L. A.) 637
Soil, amino-acid composition of the protein material in (Bremner, J. M.) 538
Soya bean extracts, action of suramin on (Wills, E. D. & Wormall, A.) 158
Specificity of horse erythrocyte cholinesterase (Mounter, L. A. & Whittaker, V. P.) 525
Spectrophotometric determination of β-glucuronidase activity using *p*-chlorophenylglucuronide as substrate (Spencer, B. & Williams, R. T.) xiv
Spectrum, absorption *see* Absorption
Spermatozoa, metabolism of (Tosic, J. & Walton, A.) 199
Sphingomyelin, decomposition by toxin of *Clostridium haemolyticum* (Macfarlane, M. G.) 267
Staining, Feulgen reaction, changes in cell nuclei (Stedman, E. & Stedman, E.) 508
Staphylococcus aureus, effect of inhibitors and antibiotics on glutamic acid accumulation and protein synthesis in (Gale, E. F. & Paine, T. F.) xxvi

Staphylococcus aureus, glutamic acid accumulation and protein synthesis in (Gale, E. F.) xxvi
Stercobilin in the normal and the porphyric, incorporation of ^{15}N in (Gray, C. H., Neuberger, A. & Sneath, P. H. A.) 87
Stercobilin, incorporation of ^{15}N in, in the normal and porphyric (Gray, C. H. & Neuberger, A.) 81
'Steroid, reducing' of urine, response in excretion to stimulation of the adrenal cortex by adreno-corticotropic hormone (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
Sterols, reaction with inorganic halides (Green, J.) i
Succinic acid, excretion by fermenting yeast (Conway, E. J., Brady, T. G. & Carton, E.) 369
Succinic acid, relation to the K^+ and H^+ exchange in fermenting yeast (Conway, E. J. & Brady, T. G.) 360
Succinic dehydrogenase, action of suramin on (Wills, E. D. & Wormall, A.) 158
Succinic dehydrogenase, effect of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Succinic oxidase system, action of suramin on (Wills, E. D. & Wormall, A.) 158
Succinoxidase activity of mitochondria, inhibition by *Clostridium welchii* toxin (Macfarlane, M. G.) xxix
Sugar, reducing, determination in blood (Ramsay, W. N. M.) xli
Sugar, reducing, reaction in the 'dry' state with proteins (Lea, C. H., Hannan, R. S. & Greaves, R. I. N.) 626
Sugars, amino, separation and identification of (Annison, E. F., James, A. T. & Morgan, W. T. J.) xxxvi
Sulphadiazine, effect of, on the aneurin economy in animals (Kratzing, C. C. & Slater, E. C.) 24
Sulphamerazine, effect of, on the aneurin economy in animals (Kratzing, C. C. & Slater, E. C.) 24
Sulphate, effect on glucuronide synthesis in mouse-liver slices (Storey, I. D. E.) 212
Sulphate of 2-amino-1-naphthol as urinary metabolite of 2-naphthylamine (Manson, L. A. & Young, L.) 170
Sulphates, ethereal, excretion by rabbit after administration of xylenols (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 395
Sulphite, reduction of disulphides by (Cecil, R.) 572
Sulphonamides, effect of, on the aneurin economy in animals (Kratzing, C. C. & Slater, E. C.) 24
Sulphonic acid groups of suramin and action on enzymes (Wills, E. D. & Wormall, A.) 158
Sulphydryl compounds, possible use as protection against mustard gas (Holiday, E. R., Philpot, J. St L. & Stocken, L. A.) 637
Suramin, action on enzymes and other proteins (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Suramin, action on some enzymes (Wills, E. D. & Wormall, A.) 158

Tea manufacture, fermentation process in (Roberts, E. A. H. & Wood, D. J.) 175
Testes of *Patella* spp., distribution of carotenoids in (Goodwin, T. W.) 249
Thiazole-4-carboxylic acid, 2-amino-5-methyl, vitamin B_1-like activity of (Di Maggio, G.) 562
Thiocyanate space in the thyroid gland of dogs (McClendon, J. F., Foster, W. C. & Reed, E.) 53
Thiols, estimation of (Cecil, R.) 572
Thiols, quantitative reaction with silver nitrate (Cecil, R.) 572
Thiolurocanic acid, non-excretion in rat after administration of ergothioneine (Lawson, A., Morley, H. V. & Woolf, L. I.) 513
Thiophosphonate, ethanemono-, an antidote to mustard gas (Holiday, E. R., Philpot, J. St L. & Stocken, L. A.) 637
Thymidine, isolation from thymonucleic acid (Brady, T. G.) v
Thymine in deoxypentose nucleic acids (Wyatt, G. R.) vii
Thymonucleic acid, isolation of thymidin from (Brady, T. G.) v
Thyroid gland, of dogs, thiocyanate space and iodide space in (McClendon, J. F., Foster, W. C. & Reed, E.) 53
Tissue extracts, deacetylation of acetamido compounds by (Bray, H. G., James, S. P., Thorpe, W. V. & Wasdell, M. R.) 483
Tobacco, cellulase from leaves and roots of (Tracey, M. V.) 431
Tobacco-leaf components, action of mammalian pancreatic and salivary enzymes on (Holden, M. & Tracey, M. V.) 421
Tobacco-leaf components, breakdown by enzymes (Holden, M., Pirie, N. W. & Tracey, M. V.) 399; (Holden, M. & Tracey, M. V.) 407; (Holden, M.) 415; (Holden, M. & Tracey, M. V.) 421
Tobacco-leaf components, breakdown by fungal enzymes (Holden, M.) 426
Tobacco-leaf fibre, action of fungal polygalacturonase on (Holden, M.) 415
Tobacco leaves, isolation of nucleoprotein with some similarity to plant viruses (Pirie, N. W.) 614
Toluene, derivatives of, metabolism in rabbit (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 395
Toxaemia of pregnancy and α-amino-acid nitrogen of plasma (Crumpler, H. R., Dent, C. E. & Lindan, O.) 223
Toxic agents, biochemical studies of (Manson, L. A. & Young, L.) 170
Toxin of *Clostridium haemolyticum*, lecithinase activity of (Macfarlane, M. G.) 267
Toxins, bacterial (Macfarlane, M. G.) 267, 270
Trace metals, avidity of naturally occurring substances for: amino-acids (Albert, A.) 531
Transaminases, use in determination of certain amino-acids (Krebs, H. A.) 605
Transfructosidation in the Jerusalem artichoke (Edelman, J. & Bacon, J. S. D.) xlii
Transient orange, use of, in studies on rhodopsin (Collins, F. A. & Morton, R. A.) 18
Transport of potassium in brain and retina, role of glutamic acid in (Terner, C., Eggleston, L. V. & Krebs, H. A.) 139
Tricarboxylic acid cycle, fluoroacetate poisoning of (Buffa, P., Lotspeich, W. D., Peters, R. A. & Wakelin, R. W.) xvii
1:4:5-Trihydroxynaphthalene *see* Hydrojuglone
Trypanosomes, action of suramin on *in vivo* (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Trypsin, action on tobacco-leaf fibre (Holden, M. & Tracey, M. V.) 421
Tryptophan, non-occurrence in hydrolysates of soil proteins (Bremner, J. M.) 538
Tyrosine, metabolism in premature infants (Woolf, L. I. & Edmunds, M. E.) 630

Urea, metabolism in animal tissues (FitzGerald, O.) ix
Urea, ^{15}N-labelled, metabolism in the cat (Davies, R. E. & Kornberg, H. L.) viii
Urease, action of suramin on (Wills, E. D. & Wormall, A.) 158
Urease, effect of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Urease, gastric, and hydrochloric acid secretion (Davies, R. E. & Kornberg, H. L.) ii
Urine, an ether-soluble precursor of coproporphyrin in (Raine, D. N.) xiv
Urine, determination of antrycide in (Spinks, A.) 299
Urine, human, isolation of androst-16-en-3α-ol from (Brooksbank, B. W. L. & Haslewood, G. A. D.) 36

Urine, identification of uronic acid in oestriol monoglucuronide (Grant, J. K. & Marrian, G. F.) 1
Urine, metabolites of 2-naphthylamine and its acetyl derivative in (Manson, L. A. & Young, L.) 170
Urine, non-occurrence of ergothioneine in (Lawson, A., Morley, H. V. & Woolf, L. I.) 513
Urine, normal, albumin in (Marrack, J. R. & Johns, R. G. S.) xxxi
Urine, 'reducing steroid' of, response in excretion to stimulation of the adrenal cortex by adreno-corticotropic hormone (Brooksbank, B. W. L., Owen, G. M. & Prunty, F. T. G.) xlv
Urobilinogen, excretion in congenital porphyria (Gray, C. H., Muir, I. M. H. & Neuberger, A.) 542
Uronic acid, identification from oestriol monoglucuronide (Grant, J. K. & Marrian, G. F.) 1
Uronic acids, colorimetric method for determination of pentoses in presence of (Tracey, M. V.) 433
Ursodeoxycholic acid, occurrence in bear bile (Haslewood, G. A. D. & Wootton, V.) 584

cis-Vaccenic acid, effect on growth and respiration of *Bacillus subtilis* (Laser, H.) xxxii
Viruses, plant, isolation from normal tobacco leaves of nucleoprotein similar to (Pirie, N. W.) 614
Visual pigments (Collins, F. D. & Morton, R. H.) 3
Vitamin A in the kidney of the rat (Eden, E. & Moore, T.) vi
Vitamin A in the kidneys of male and female rats (Moore, T. & Sharman, I. M.) xliii
Vitamin A, influence of sex on the storage of (Booth, V. H.) xliii
Vitamin B_{12}, intestinal inhibitor of (Shaw, G. E.) xxxv
Vitamin B_1-like activity of 2-amino-5-methylthiazole-4-carboxylic acid (Di Maggio, G.) 562
'Vitamin C, apparent' of walnut, identification with hydrojuglone glucoside (Daglish, C.) 462
Vitamin D and chick phosphatases (Motzok, I.) 193
Vitamin D and plasma phosphatase of chicks (Motzok, I. & Wynne, A. M.) 187
Vitamin D potencies, determination by chick phosphatase activity (Motzok, I.) 196
Vitamin D, reaction with iodine trichloride (Green, J.) i

Wallerian degeneration, chemical changes in peripheral nerve during (Burt, N. S., McNabb, A. R. & Rossiter, R. J.) 318
Walnut, 'apparent vitamin C' of, identification with hydrojuglone glucoside (Daglish, C.) 462
Walnut, determination and occurrence of hydrojuglone glucoside in (Daglish, C.) 458
Walnut, isolation and identification of hydrojuglone glycoside in (Daglish, C.) 452
Water content of organs of the rat, effect of dehydration by hypertonic saline on (McCance, R. A. & Robinson, J. R.) xxv
Wood-rotting fungi, biochemistry of (Birkinshaw, J. H. & Morgan, E. N.) 55
Wool keratin, action of papain on (Blackburn, S.) 443
Wool, liberation of free amino-acids during the acid hydrolysis of (Blackburn, S.) xxviii
Wool, reaction with oxidizing agents (Alexander, P., Carter, D. & Earland, C.) 251
Wool, sorption of hydrogen peroxide by (Alexander, P., Carter, D. & Earland, C.) 251

X-Ray examination of haemolytic acid (Goddard, E. D. & Perutz, M. F.) 334
Xylenes, metabolism in rabbit (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 395
Xylenols, fate in rabbit (Bray, H. G., Humphris, B. G. & Thorpe, W. V.) 395

Yeast, azide effect in, with respect to potassium and phosphate permeability (Conway, E. J. & Moore, P. T.) iii
Yeast, baker's, polysaccharides composing the cell wall of (Bell, D. J. & Northcote, D. H.) li
Yeast cell, low molecular constituents of (Brady, T. G.) v
Yeast cell, outer metabolic region of (Conway, E. J. & Downey, M.) 347
Yeast cells, pH values of (Conway, E. J. & Downey, M.) 355
Yeast, effect of suramin on (Town, B. W., Wills, E. D., Wilson, E. J. & Wormall, A.) 149
Yeast, fermenting, excretion of pyruvic acid by (Conway, E. J. & Winder, F. C.) v
Yeast, fermenting, relation of succinic and carbonic acids to the K^+ and H^+ exchange in (Conway, E. J. & Brady, T. G.) 360
Yeast, inhibition by suramin (Wills, E. D. & Wormall, A.) 158
Yeast, production of acid and alkali (Conway, E. J., Brady, T. G. & Carton, E.) 369

Z-Enzyme, role in β-amylolysis (Thomas, G. J., Whelan, W. J. & Peat, S.) xl
Zeaxanthin, distribution in *Patella* spp. (Goodwin, T. W.) 249
Zeaxanthin in gonads of *Patella* spp. (Goodwin, T. W. & Taha, M. M.) 244
Zinc, avidity of amino-acids for (Albert, A.) 531
Zinc carbonate, injected, fate of (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Zinc compounds, intravenously injected, fate of (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Zinc dithizone complex, injected, fate of (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Zinc phosphate, injected, fate of (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
Zinc, radioactive (^{65}Zn), determination in tissues (Banks, T. E., Tupper, R. L. F. & Wormall, A.) 466
